We are spending 5 weeks in Iceland and Norway with two students from the ENAV school in Maputo, Mozambique, Rejao and David. We decided to dedicate this Christmas holiday (that is actually the summer holiday in Mozambique) to improve the knowledge of these two students

by taking them with us to Europe. At the same time they are going to be instrumental in informing people about redesign, recycling and sustainability - and actually we hope to create a comparison between the two cultures. How they tackle sustainability; about awareness of the environment etc. We have been lucky to be allowed to create a base in the [Iceland Academy of the Arts](#) while we are working in Iceland. The idea is to also participate in a course in animation and video editing in the Fredrikstad Cultural College in Norway. The two images display our day in the Iceland Academy, working in the media lab in Skipholt and having a simple dinner in the canteen there.
